Period for Reply -- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

The information referred to in Applicant's information disclosure statement has been considered.

Specification

The objection to the disclosure has been overcome by Applicant's amendment.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1 recites the limitation "the upper portion of the frame" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 5 recites the limitation "the fixing unit" in line 4. There is insufficient antecedent basis for this limitation in the claim.

Claim 10 recites the limitation "the inner surface" in line 3. There is insufficient antecedent basis for this limitation in the claim.

Claim 10 recites the limitation "both side ends" in line 9. There is insufficient antecedent basis for this limitation in the claim.

The remaining claims are indefinite at least since each depends from an indefinite claim.

The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

Claims 1-10 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. In lines 12 to 13 of claim 1, Applicant sets forth "a slow-downer which is connected with the hinge portion and the back support, to slow down the back support at low speed". It is unclear how the back support reaches "low speed". Is the intent to claim low speed during the pulling of the back support towards the seat? Clarification is required. In claim 7, the recitation "comprising a magnet or magnetic body which is installed in opposition to each other in both the seat and the back support" is vague. Applicant appears to claim a single article (i.e. a magnet or a magnetic body) which is installed in opposition to "each other". It is unclear whether Applicant intends to positively claim a magnet, two magnets, a magnet and a magnetic body, a magnetic body, or two magnetic bodies. It cannot be ascertained how the single article can be in

opposition to "each other". Clarification is required. The remaining claims are indefinite since each depends from an indefinite claim.

Response to Amendment

Applicant's response has been fully considered. Remaining issues are described in the above sections.

Allowable Subject Matter

Claims 2-10 would be allowable if rewritten to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action and to include all of the limitations of the base claim and any intervening claims.

Claim 1 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

This Office action has not been made final since it includes new grounds of rejection not necessitated by Applicant's amendment.
